

Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

November 4, 2021

Dear Union Grove Members, Friends, and Family:

COVID-19 case activity in Racine County remains very high. This is concerning, as we know that cases in our Homes follow the trends in the community in which they are located.

Since we updated you yesterday, we have had three members test positive for COVID-19. Currently we have seven cases of COVID-19 on campus (four members, three employees).

For those of you who are still thinking about getting the COVID-19 vaccine, please consider that if you do it by November 11th (Veterans Day), you could be fully vaccinated by Christmas. You can protect yourself, your friends, and your family over the holidays and help stop the spread of the virus. Find vaccine near you: <http://vaccines.gov>.

As always, please exercise caution to remain safe and healthy. Continue to wear a mask when out, remain six feet away from others, avoid crowds and poorly ventilated spaces, wash your hands frequently, and get vaccinated.

Thank you!

Sincerely,

Syble Barry

Syble Barry, RN, LNHA
